MANY WARNINGS ARE IGNORED

Discovery That British Ships Had Been Sold and Liquidation Would Follow, Caused Shares to Break Eight Points.

| There was some talk of the Ge | |

| for the decline was that the i | market |

That the big people are not through with the market was made evident by rumous regarding the early announcement of a gigantic oil merger. It will be called the Sholand Oil Company and will Include the Sinclair and several others. Morgan bankers are back of it and it will be one of the biggest and most important stock transactions of the Year. Money was dropped to 5 per cent and that was significant.

compliment that an institution could desire is expressed in the brief quotation that follows:

A gentleman, close enough to the inside workings of this Company to know what he was talking about, remarked lately-

"If people on the outside knew how the trusts under its control were managed by the VIRGINIA TRUST COMPANY, its business would grow even faster than it is."
